3.	Do you believe that, in the absence of a major revision of Louisiana's legal framework regarding water usage, the correct goal of a long-term water resources management plan should be to establish a comprehensive inventory of current and future water use needs, including for coastal restoration, as the fundamental basis for developing and managing the sustainability of our state's water resources? If no or undecided, please explain.
	Yes No Undecided

4.	If not already detailed in Questions 1, 2 or 3 above, are there other areas not specifically addressed within the accompanying draft Scope of Services that, in your opinion, necessitate consideration in the design/planning framework phase of development of a comprehensive statewide water resources management plan for Louisiana? If yes or undecided, please explain.
